

HEALTH IMPROVEMENT ADVISORY & CONSULTING

At KFMC Health Improvement Partners (KFMC), our subject matter experts collaborate and connect as coaches, giving you the tools, resources and knowledge you need to understand and resolve barriers to improved cost, quality and health outcomes.

Whether you engage with KFMC in a quality improvement initiative, a security risk assessment, an independent review, a special project or all of the above, our service-first advisors focus on helping you achieve performance improvement and operational excellence.

CONSULTING SERVICES

KFMC offers client-centric advisory and consulting services to support the business needs of health organizations and providers of all types and sizes. Long recognized for health improvement initiatives in Kansas and Missouri, today we are empowering organizations across the United States to achieve their goals.

We share knowledge and expertise by collaborating and connecting as coaches across a wide array of long-term and short-term engagements.

Tailored to your specific business objectives, our advisory and consulting services deliver expert guidance for quality improvement, clinical care initiatives, program development and evaluation, healthcare data analytics, and information technology.

“I wanted you to know how grateful we are for our access to the wonderful and knowledgeable staff that you have. Having you available to consult, teach, help us understand and meet stringent interoperability standards meant more to us than you know.”

**J. Kent Winblad, MD, FACOG
Winfield Medical Arts, Winfield, Kansas**
